**Barre:** Body sculpting using the ballet barre. Pilates techniques and light weights-resulting in toned lower body, strong arms and flat abdominals.

**Body Fusion:** A low-impact workout that incorporates ballet-style moves and light weights for a total body tone. These small isometric movements will help sculpt muscles, improve flexibility and balance, and create a long lean physique.

**Circuit:** Circuit training is a high volume (repetitions), low resistance (weight) workout with short rest intervals and is geared primarily at improving muscle tone and definition, while improving cardiovascular fitness.

**Mat Pilates:** This mixed level Pilates mat class focuses on strength, precision, and flow of movement. In this small class setting the teacher will present the exercises at multiple levels which allows student to choose to work at a beginning, intermediate, or advanced pace. Students will learn to be aware of breathing patterns and spinal alignment while engaging the deep muscles of the core.

**Pound:** A full-body cardio jam session, combining light resistance with constant simulated drumming. The workout fuses cardio, Pilates, isometric movements, plyometric and Isometric poses into a 45-minute series. Burn between 400 and 900+ calories per hour, strengthen and sculpt infrequently used muscles, and drum your way to a leaner, slimmer physique – all while rocking out to your favorite music.

**Yoga:** A multi-disciplinary class which focuses on alignment and breath awareness while moderately flowing from one posture to the next using breath as the vehicle. Conquest teaches a multi-level yoga which allows students to flow and focus on their breath while detoxing the body, mind, and spirit.

**Mind Body Symmetry (MBS), in partnership with Conquest Fitness, now offer a larger selection of classes to help meet your fitness needs! These select classes run for 6 weeks at a time. There is separate pricing for MBS classes.**
